

March 2022 Agency Update

OUR VISION is a society where mental health issues and concerns are not stigmatized, where **all citizens** have access to quality mental health services when needed, where **all people** are treated with dignity and respect, and where **everyone** can get the support, tools, and resources they need to grow and thrive.

Follow us on social media this month to learn about disparities in mental health services for minorities and what we can do about it.

PROGRAMMING & IMPACTS: Intact Family Services

The Intact Family Services Program strengthens families by providing in-home support intended to protect children from child abuse and keep families together by avoiding foster care. This program offers case management & counseling, monitors family interactions, provides community resources, and educates on child development and age appropriate behavior and discipline.

LAST FISCAL YEAR, WE SERVED
215% MORE FAMILIES THROUGH OUR INTACT PROGRAM
THIS YEAR, WE NEED YOUR HELP!

One of the most common needs among our families are new household items to help keep kids safe, which CYN Counseling Center provides at no cost.
